

Editorial

It is our great pleasure that Sonargaon University brings the Volume 04 and Issues I & II of Sonargaon University Journal (SUJ). It encourages researchers and academicians locally and globally to disseminate their professional knowledge and research activities in the field of literature, business, arts, social sciences, law, ICT, engineering and technology. Sonargaon University Journal is a multidisciplinary peer reviewed journal published semi-annually. The main goal of SUJ is to bridge the research community through publishing their research based papers, articles, case studies, reviews on books and various topics of current interest in different disciplines. The SUJ would appreciate cutting-edge, high-quality and original research papers. Hopefully, SUJ has a group of distinguished scholars who have agreed to serve on the editorial board. We are also delighted to have a team of national and international reviewers who are actively involved in research in different disciplines. Their helpful review comments definitely have the positive impact to enhance the quality of the research papers.

The volume 04, Issues I & II contain ten research articles on different fields. The first articles tried to construct a regression model for the lift to drag (L/D) ratio in order to get the optimal L/D ration & co-efficient of moment the estimating value has advantages for designing and testing the NACA 4412 air foil wilton specific boundaries. The second article's objective is to determine the compressive strength of concrete by using different brands of profound composite cement. The output of the research can have a significant importance for the civil engineers. In today's society environmental contamination is the most concerning issue. One of the prominent business sectors that pollute the environment is the constructive sector. The third research article focuses on an experimental investigation conducted on the blocks made of Rice Husk Ash (RHA). Fourth article is analyzed the apparel Buying Behavior of output provided some important information about the customer behavior is purchasing of apparels product. The fifth paper found out the contemporary threats and possible way outs of RMG sectors of Bangladesh. The research findings have shown that the threats faced by this industry Non-Compliance Working Environment, Energy Crisis, Political Instability, Women workforce declining in RMG sector, absence of local Raw-material, lack of research of using technology, eco fashion and absence of adaptation with the latest technology, lack of market oriented design that indicate product diversification, lack of prompt banking services, political and labor unrest & market diversification. Hence, the factors must have to be addressed. Sixth article investigated the impact of corporate governance practices on organizations in the emerging economics like Bangladesh. The research highlighted the corporate governance practices with particular reference to Pharmaceutical, Ceramic & Chemical Industries. Seventh article investigated microclimatic influence of greening roofs, walls, and terraces in urban dwellings through a case study in Uttara, Dhaka. Eighth article's tried to determine whether and how Distributed Generation (DGs) could help with Voltage Control (VC) in medium voltage distribution grids through reactive power generation and absorption. The control technique was described using the optional power flow problem, with a focus on voltage control. Ninth article explored the impact of COVID-19 on Bangladesh's agriculture industry. The tenth article explored the survival scenario of the street children in Bangladesh. The authors make fifteen recommendations to make policies and stake holders including Government authorities in order to ensure better survival scenario of the street Children.

We are grateful to the Chief Patron Engr. Abdul Alim and Patron Engr. Abdul Aziz whose supports and guidance have materialized the ideas of this journal. Our sincere thanks to the Prof. Shamim Ara Hassan, Hon'ble Vice-Chancellor, Sonargaon University for her sincere guidance and support. We also extend our heartfelt thanks to the reviewers for assessing large number of articles for the journal.

Finally, limitless gratitude to the honorable editorial board members for their valuable advice.

Professor Dr. Mohammad Ekramol Islam
Editor-in-Chief
