

Distinguishing Features

Sonargaon University is distinguished for its several attractive features. These are: free transport facilities, hostel facilities for female students, large number of students in Mechanical Science Engineering department, Low tuition fees, high turnout from income low group and, on-campus students' employments, to cite the few, A clear view of these features are described below:

- SU has provided as many as 13 large transports for carrying students of far distant places free of cost and enabling them to attend classes in time and return home safely.
- A large hostel facility for female students. This is located very close to the university campus --- almost in walking distance.
- SU is heavily science and technologically oriented. Hence, it has relatively a large number of technical and engineering students, ratio being 80:20
- A large number of students in Mechanical Engineering Department, almost 35% of a total of 7500+ students.
- Very low tuition and admission fees compared to other private universities.
- Many students who cannot afford to study in other private universities, they prefer to come to SU. Hence, turnout from the low income families is very high.
- Lot of extracurricular activities in all the departments.
- Extensive lab facilities for all engineering and technical Departments.
- On campus employment opportunities for students.
